Remember to include charging stations and electrical plugs. You can never have too many of those!

Mike D.

I would die without my utility room right off the garage. It's the perfect drop zone for groceries and dirty shoes...and the only way I can keep my home clean and organized.

Jennifer B.

We are so happy to have chosen a home with an extra loft area. It serves as the kids' playground, and allows me to keep the mess upstairs while the downstairs remains tidy and presentable.
